Provision-ISR: Israeli know-how and reliability

Israel's primacy in the security market is a globally recognized factor. Since it existed, the geopolitical tensions that have affected the country have pushed the industry to invest in emergency management, cybersecurity, intelligence, and critical infrastructure protection. This allowed security manufacturers to gain unparalleled expertise and a worldwide reputation for developing leading-edge security solutions.

Founded in 2006, Provision-ISR is an International CCTV brand from Israel manufacturing in China and one fastest-growing CCTV brands around the world. We serve more than 40 countries on five continents with branches and official distributors working as partners to promote the brand in their regions.

Brand philosophy

Ethics

We “protect” all the players in the supply chain, from the big distributor to the small installer, and respect the professionalism of each one. The distributors and the installers who choose Provision-ISR feel confident with the brand that demonstrates its approach daily with concrete action.

Focus

We believe that focus is the key to building great products. Our brand offers a Limited range of products answering real market needs. We focus on each feature, ensuring that it performs at its best and that we have the flexibility to adapt quickly to product changes and improvements.

Western Business Approach

With our Israeli DNA, we emphasize the importance of human relationships even in a business context. We believe in long-term partnerships based on respect and constant growth.

Knowledge sharing

We strongly believe that **sharing knowledge** is the key to professionalism. Our responsibility is to pass on our knowledge from the manufacturer to the installer through the entire supply chain. We listen to and learn from our target audience, which keeps us improving solutions according to actual market needs.

Logistics and global distribution

Three Logistics warehouses strategically located in China, the Netherlands, and the USA allow Provision-ISR to reach any global market, guaranteeing fast and efficient international distribution. Today we serve more than 40 countries through a vast network of official exclusive distributors working as partners to promote and expand the brand in their regions.

Attention to vertical markets

Nowadays, a wider variety of vertical markets show an increasing need for video surveillance, and security manufacturers must provide high-performance technologies at a very competitive price. Provision-ISR can accomplish this requirement thanks to a comprehensive product suite including high-definition Analogue cameras, affordable IP with advanced analytics functions, and cutting-edge software solutions.

Product range

Provision-ISR products include high-quality IP and HD cameras, sophisticated recording devices, and a complete range of reliable accessories specifically designed for the CCTV market. In addition, Provision-ISR engineers gained unparalleled expertise in developing leading-edge software solutions while keeping their interface simple and intuitive.

Production facilities

While the designing process takes place in Israel, the production facilities are based in Shenzhen (China). This setup allows us to be highly competitive in the market. Provision-ISR engineers select the best components available on the market, and the quality control that follows the production processes allows us to reach the expected top-quality standards.

Provision-ISR international projects

Hospitals, shopping centers, industrial complexes, hotels, sports facilities, residential areas, museums, and historical buildings: Provision-ISR CCTV solutions are developed to fulfill any security requirement. Through the years, the Brand has gained the trust of the security market, and today the world can count thousands of projects branded by Provision-ISR.

Leading a revolution in cctv cyber security

The market scenario

Cyber security awareness in the field of CCTV.

Modern CCTV cameras are essentially functioning as small computers that run operating systems and applications. As such, they are also susceptible to hacking attacks. intruders are starting to use more sophisticated and unique methods to access networks, data, and assets. Their goal is to gain a foothold into sensitive networks, exploit vulnerabilities quickly, and profit from them.

With sensitive information to be protected, security leaders such as Provision-ISR, are responsible for keeping a proactive approach in avoiding this risk by securing their video data and video surveillance systems. Provision-ISR wants to lead from the front with 100% secure CCTV devices that will give customers peace of mind. By partnering with Check Point, Provision-ISR CCTV devices will gain protection against sophisticated threats, out-of-the-box.

With Check Point embedded security in CCTV devices, Provision-ISR stands apart from other similar CCTV offerings. This builds user confidence in an ever evolving and dangerous cyber physical world.

Check Point IoT Protect Nano Agent

Embedded runtime protection for cctv devices

Revolutionary Check Point IoT Protect Nano Agent provides IP connected CCTV with runtime protection, enabling Provision-ISR devices with built-in firmware security.

Based on cutting edge control flow integrity (CFI) technology, Check Point IoT Protect Nano Agent runs inside the device in the firmware level, hardens it, and provides runtime protection against the most sophisticated attacks such as shell injections, memory corruption, control flow hijacking and even zero-day firmware vulnerabilities that have yet to be discovered.

It blocks any deviations such as unauthorized commands or processes. It protects the device from Data and privacy breaches, from attempts to disrupt the normal operation or take control on the device, and even attempts to use the device by attackers as a backdoor to the organization and using it to attack the network

Revolutionary embedded real time protection against the most sophisticated cyber attacks

Malware Execution Prevention

Network Exploit Prevention

Ensure Valid Device Operations

Privacy & User Data Protection

NDAA Compliance

NDAA Compliance

The John S. McCain National Defense Authorization Act (NDAA) for the Fiscal Year 2019 was passed on August 13, 2018. The law, specifically Section 889, prohibits federal agencies, their contractors, and grant or loan recipients from procuring or using “Telecommunications and video surveillance equipment or services” from specific Chinese companies as a “substantial or essential component of any system, or as critical technology as part of any system.” The NDAA ban includes telecommunications equipment produced by Huawei Technologies Company or ZTE Corporation and video surveillance and telecommunications equipment produced by Hytera Communications Corporation, Hangzhou Hikvision Digital Technology Company, or Dahua Technology Company.

Provision-ISR Statement

With headquarters in Israel and manufacturing facilities located in Shenzhen, China, Provision-ISR supports NDAA compliance across its product line and is committed to complying with all government and international trade regulations. Provision-ISR is committed to providing NDAA Section 889-compliant products and does not have OEM, ODM, and JDM relationships with the named vendors in the NDAA. Provision-ISR cameras and network video recorders (NVRs), which do not use or deploy critical components, including SoCs produced by NDAA-banned component vendors, comply with the NDAA. The Provision-ISR compliance product list will be regularly updated on Provision-ISR’s website.

Discover NDAA compliant products

OSSIA O.S.

Simple and Intuitive Operating System by Provision-ISR.

Ossia is the latest OS for Provision-ISR DVR/NVR systems. It is one of the most innovative operating systems available in the market. It offers full compatibility with all Provision-ISR IP cameras with complete control over all main features. Moreover, it provides the user with all the necessary tools to complete the system's utilization while keeping things simple and intuitive. The firmware is based on the most advanced SOC technology and boasts a new graphical user interface (GUI) that is simple to use, even in comparison to the previous version.

IP Technology

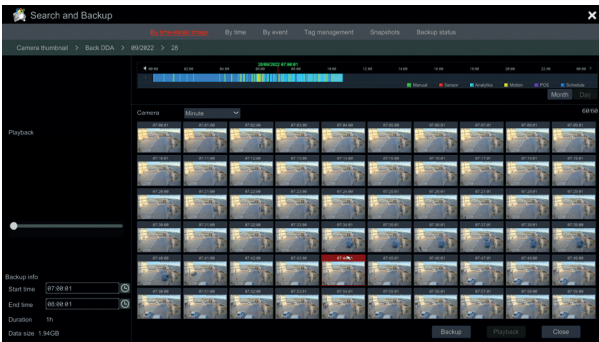

WEB CLIENT INTERFACE

Enjoy the full advantages the OSSIA OS has to offer on an identical interface between local and web.

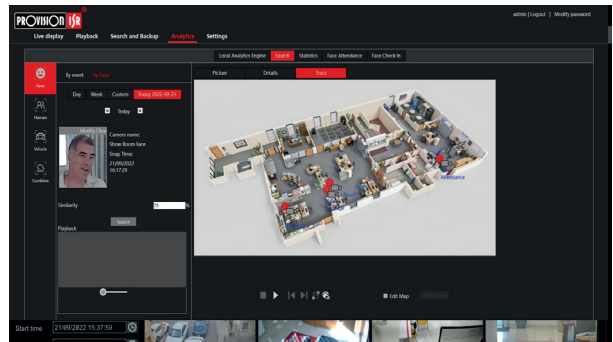

ANALYTICS DEDICATED INTERFACE

Search and backup based on objects: Humans, Vehicles, License plates, and Human Faces.

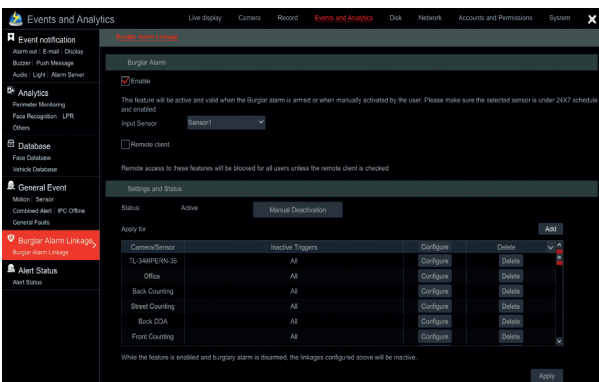

SEARCH PLAYBACK AND BACKUP

Enjoy features such as the time-slice search, which helps to find a playback in no time.

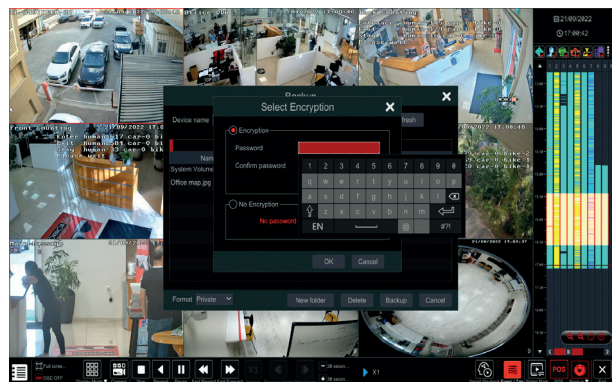

OVER-MAP FACE TRACK

Upload a map, and track a chosen face over it.

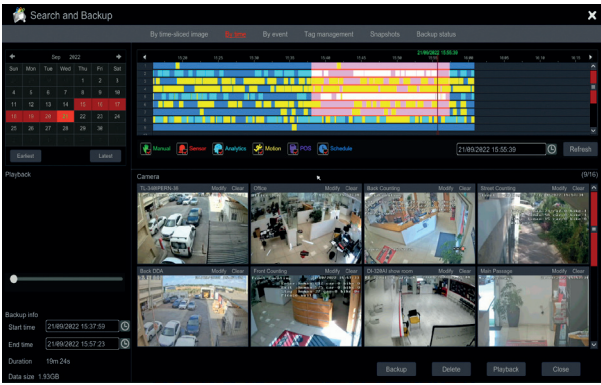

BURGLAR ALARM

Notifications and triggers will be activated based on the arming status of the main security/burglary alarm.

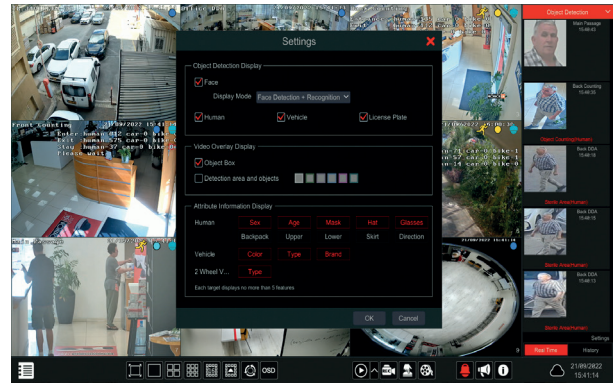

SECURITY AT HIGHEST PRIORITY

Encrypting the data is possible on the HDD and on the playback files saved on the pen drive.

BATCH PLAYBACK HANDLING

Multiple channels playback, backup, or delete in a single click.

IN CHANNEL APPEARANCE

Easily choose what data is visible on the channel, along with objects, faces, plates, and more.

STATISTICS VARIATIONS

Choose the time - and get instant traffic statistics for humans and vehicles which occurred at that specific time.

IN CHANNEL ACTIVATIONS

Common actions are centered in each channel's mini-menu for quick operation.

INTUITIVE OPERATIONS

Audio broadcast, immediate alarm/relay activation, instant playback, and many more at a click of a button.

VMS - Video Management Software

Intelligent web-client video management platform

Ossia VMS is an advanced and reliable Video Management Software specifically designed for CCTV systems featuring multiple devices controlled from a single reliable platform.

Centralized monitoring across bank branches, campus facilities, chain stores, or industrial complexes - provides operators with at-a-glance verification of incidents and management of multiple cameras through real-time floor plans and intelligent mapping features.

The Ossia VMS solution provides a flexible operational approach for operators and manned guarding teams. The platform enables a rapid and decisive response to any incident with its unique and tailored features.

Vertical markets

Shopping centers

Governments institutes

Industry

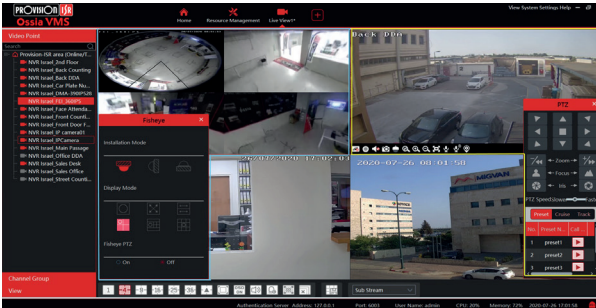

Standard version

Ossia VMS STANDARD VERSION supports up to 256 channels and is 100% License Free.

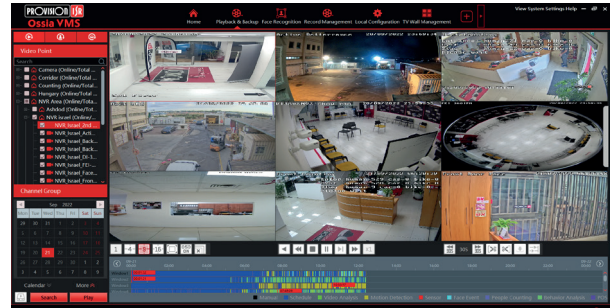

Enterprise version

Ossia VMS ENTERPRISE VERSION supports up to 3,000 channels and is a license-based platform.

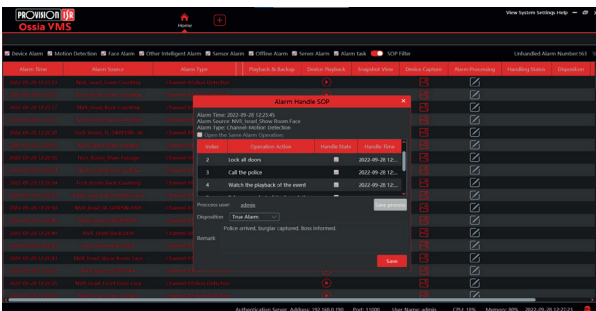

MAIN INTERFACE - LIVE VIEW

Complete live view control, including Fish-Eye views, PTZ Control, Instant Playback, Audio broadcast, Manual alarm activation, and many more.

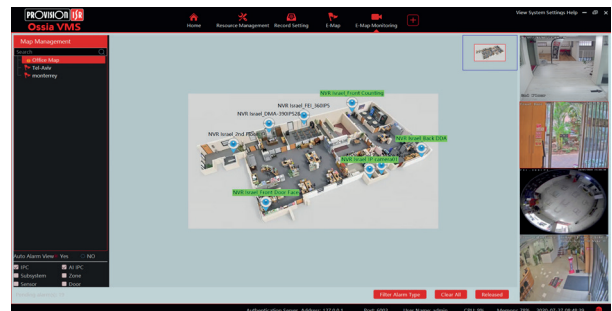

MAIN INTERFACE - PLAYBACK VIEW

View playback from the recorder/storage server, back up multiple cameras at once and combine a face/license plate for your search.

SOP - STANDARD OPERATING PROCEDURE

Predefined actions to be followed by the operator based on specific events

MAIN INTERFACE - E-MAP MONITOR

Use google maps or upload your own and get an immediate indication of where an event has happened.

MAIN INTERFACE - FACE DETECTION

Use the VMS to search for faces across multiple devices and follow a face path over the E-map you have created.

Standard version

Ossia VMS STANDARD VERSION supports up to 256 channels and is 100% License Free.

Enterprise version

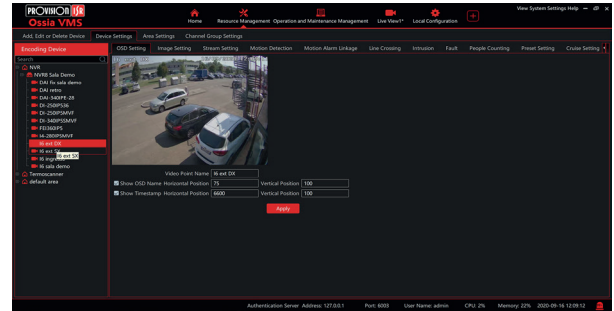

Ossia VMS ENTERPRISE VERSION supports up to 3,000 channels and is a license-based platform.

DECODING BY DEDICATED HW

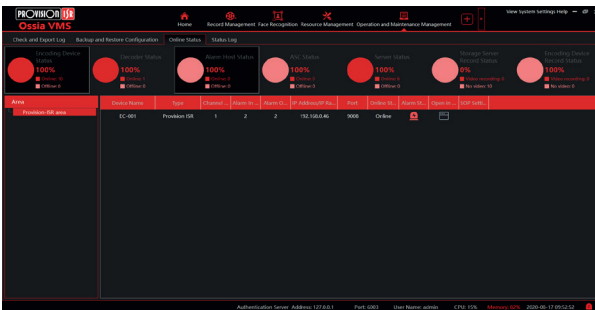

TV-Wall

- 144 channels can be viewed at once.
- Dynamic TV-Wall with merging, splitting, and PIP options.
- Windows can be used for live, playback, or alarm tasks.

REMOTE SETTINGS

Set your devices straight from the VMS, starting from the most basic motion detection to the more advanced features such as DDA analytics and face detection.

SYSTEM HEALTH MONITOR

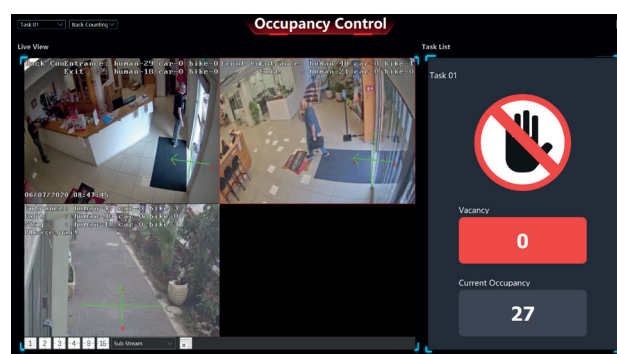

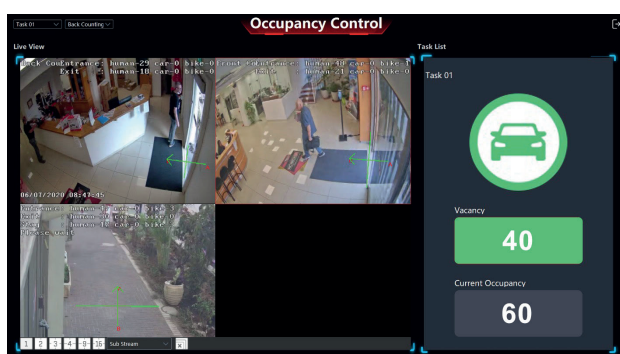

The system health monitor allows the user to see the system and connected devices' status visually. It shows connectivity, alarm status, number of channels, and more. The user can even connect directly to his device's web client.

ALARM VIEW

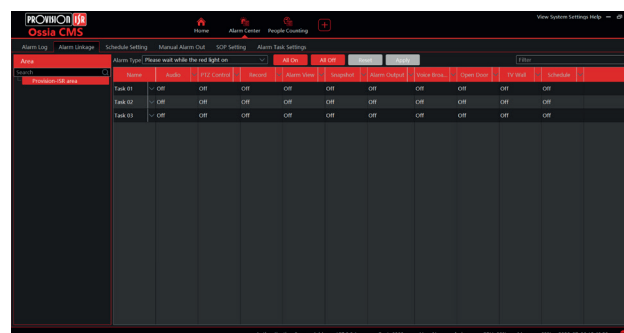

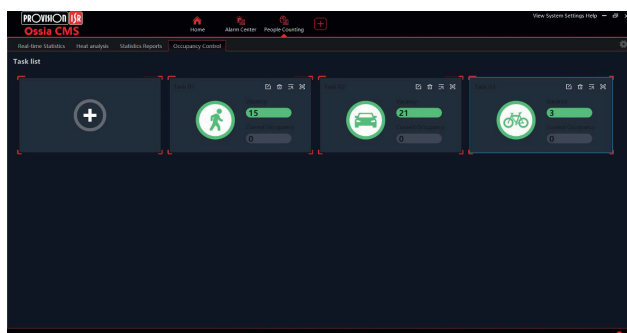

Choose which events will pop up on your monitor, including the specific event details.

VMS - Highlighted features

OBJECT COUNTING AND OCCUPANCY CONTROL

Ossia VMS combines data from multiple counting cameras placed at the entrance/exit of a venue, providing real-time data on how many people are present in that particular area at a specific time (people occupancy). This insight allows the user to monitor visitor flow and occupancy and take measures if occupancy exceeds the set threshold. The same feature can be used for vehicle counting and its exemplary application in parking management.

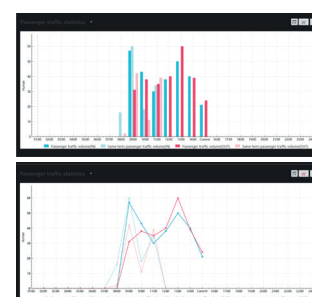

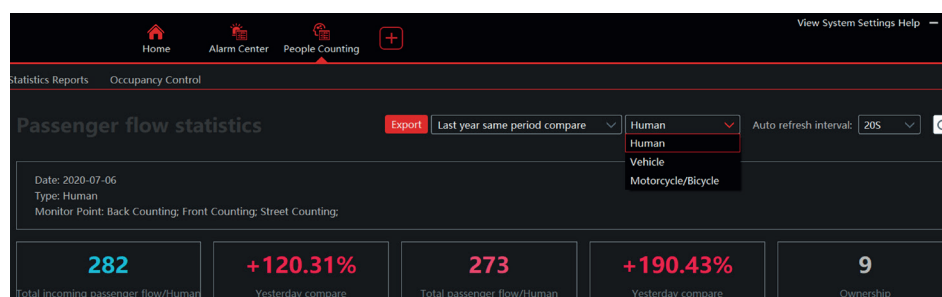

CREATE MULTIPLE TASKS

Ossia VMS allows setting a limit for the number of humans or vehicles permitted to enter a particular area. The user can create multiple tasks. Each of them includes:

- Cameras
- Objects type (humans, 2-wheel vehicles, 4-wheel vehicle)
- Editable voice message
- Counting limit

CHOOSE YOUR FAVORITE TRIGGER/ACTION IN CASE OF EXCEEDED OCCUPANCY

- Audio
- PTZ control
- Record
- Alarm view (video pop-up)
- Alarm view (decoder)
- Alarm output
- Set your customized schedule

REAL-TIME/HISTORICAL

Object counting technology allows the user to access real-time people/vehicle counting data. The user can view statistics from several cameras and locations simultaneously.

- Possibility to compare data from the last day/month/year.
- Possibility to visualize linear/bar-shaped graphs showing incoming/outgoing traffic (each graph is downloadable as a PNG file).
- Possibility to visualize a Real-Time table showing incoming/outgoing traffic (the table is downloadable as an XLS file).

SHOB Security management platform

The ultimate parking management experience

Provision-ISR SHOB is a prodigious security management platform that includes a parking management module allowing the user to exercise complete control over the monitored parking areas, from the automated entry of vehicles with registered number plates to the easy registration of visitors in a given time. When the "SHOB" Security Management Platform meets Provision-ISR LPR cameras, the story unfolds: the cameras detect and recognize a vehicle license plate and send the information to the "SHOB" platform for parking and access management. As a result, the user can control the monitored parking areas and efficiently manage various access criteria.

Key Features

5 steps and go

Visitors

Reports

	User 1	User 2	User 3
A		●	
B	●		
C	●	●	●

Access level management

Main features

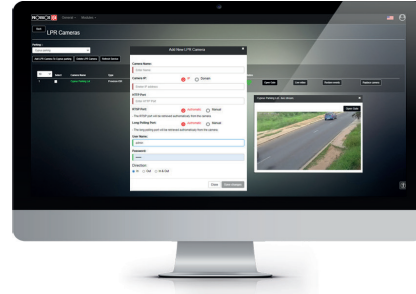

- Automated entry of vehicles with registered number plates
- Storage of all incoming/outgoing car images and plate numbers
- Central registration of authorized vehicles and users
- Blacklist warning when an unwanted car appears at the gate
- Easy registration of visitor's vehicles for a given time
- Manual gate-opening option from the controller PC

PARKING MANAGEMENT

1) LPR QUICK SETUP

- Create a parking lot
- Create a company within the parking lot
- Add LPR cameras to the parking lot
- Add authorized cars

2) LPR CAMERAS

- Add/remove LPR cameras
- Replace an LPR camera (one click to get it back in action!)
- Play live video
- Open the gate manually
- Restore events (data will be taken from the SD card)
- Camera Direction Setting

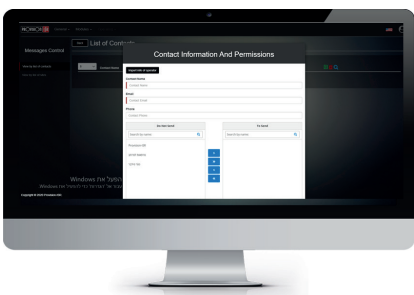

3) VISITORS

- Add visitors' details (license plate, name, surname, phone number...)
- Select the date and time you want to reserve the parking space for the visitor
- Add inviter details (company name, parking group)

4) MONITORING AND CONTROL

- Get basic information (Company name, Driver name, Camera Location)
- Get event list: authorized car / unauthorized car (unknown)/ Parking full/ Events received from SD card after connection loss
- Play live video
- Open the gate manually
- Check parking lot status
- Any captured plate can be added directly from this screen as an authorized vehicle

5) SYSTEM MESSAGES MANAGEMENT

- Get notifications by E-mail of your LPR camera changes.
- Determine which sites and officials are to be notified.
- Easily monitor connection loss, connection retrieved, camera location, Etc.

Provision CAM 2 Mobile APP

The App you always dreamt of is in the pocket of your jeans.

Provision Cam2 is a free application for iOS & Android devices, offering users complete control over their devices, including live view, playback, and settings. The App is compatible with all Provision-ISR NVRs, DVRs, and static IP Cameras, secured against unauthorized access, user-friendly and intuitive for all users.

Key Features

AI-based playback

Talk and listen capabilities

Account based

EASY, POWERFULL, COOL!

DDA ANALYTICS SEARCH

Search events by specific analytics!

SIMPLE PLAYBACK FILTERING

Easily search and find specific event playbacks!

FREEDOM OF CHOICE

Provision-ISR App allows you to choose what's best for you!

IT'S ALL ABOUT SHARING

Share your contents via smartphone!

ALL YOU NEED IS APP

Access all features from the Provision Cam2 App!

FACE RECOGNITION

Capture faces directly and keep your face database!

NOTIFY ME

Always stay connected by getting push notifications!

FISH-EYE

Enjoy the ultimate viewing experience in 360 °!

Artificial Intelligence by Provision-ISR

Detect. Distinguish. Alert.

DDA™ VIDEO ANALYTICS allows the system to distinguish between humans, 4-wheel vehicles, and 2-wheel vehicles based on smart object recognition technology. Thanks to this technology, the system triggers alarms or sends push notifications only when the desired object is detected and, by doing so, reduces annoying false alarms caused by shadows, light changes, shaking trees, animals, Etc.

Humans

4 wheels

2 wheels

DDA™ APPLICATION EXAMPLES

DDA™ LINE CROSSING

The user draws a line in the scene and sets the crossing direction and permissions—for example, Pedestrian only street. If vehicles are not allowed to enter the road, the system will generate an alarm only when a vehicle crosses the line. No alarm will be generated if a human crosses the line.

DDA™ STERILE AREA

The user draws an area in the scene and sets access permissions—for example, No-Parking Zone. If vehicles are not allowed to access the “No-Parking Area,” but people are, the system will generate an alarm only when a vehicle enters the area. In addition, the user can configure if entering/exiting the area will trigger an alarm.

DDA™ PEOPLE / VEHICLES COUNTING

The user places the camera at a gate entrance/exit for real-time monitoring—for example, Vehicle Maximum Limit. The system will count the number of vehicles entering and exiting the area and alert when the number reaches the maximum limit.

Artificial Intelligence by Provision-ISR

Detect & Identify.

DDA™ VIDEO ANALYTICS 2nd generation is almost here! An advanced face & vehicle recognition technology that allows the system not only to detect, distinguish and alert but also define and identify personal elements to improve results for better, sharper, and more powerful alarm accuracy!

HUMAN RECOGNITION

Amazingly, 2nd generation provides security professionals with personal information such as gender, age, clothes color, and accessories.

- Man
- Age: 35
- NO Glasses
- Light blue T-shirt

- Woman
- Age: 32
- Skirt: Yes
- NO Mask

VEHICLE RECOGNITION

Once the vehicle is detected, you can have a complete description, including the brand, type, and color!

- Brand: Ford
- Type: Focus
- Color: Red

- Brand: Peugeot
- Type: 308
- Color: Blue

- Brand: Volkswagen
- Type: Polo
- Color: White

Face recognition technology

Even a poker face cannot fool us.

Face recognition technology is based on the unique differences between faces, changes in appearance with lighting, and facial expressions. The camera gives different identifiers to different parts of the face and combines them to create a unique ID for each face.

Provision-ISR's "Face Recognition" can be used to identify strangers in a facility, make an automated attendance system, get push messages for VIP customers, and lots more.

DYNAMIC FACE DETECTION (Camera Side)

A single camera can detect, trace and evaluate **5-10 faces simultaneously**, depending on the scene conditions.

SEARCH OPTIONS

- Single individual/group search
- Possibility to access all the events where a person was recognized.
- **Possibility to search new and existing faces using the Cam2 Mobile App.**
- Quick backup and playback data export.

FACE RECOGNITION (NVR Side)

The recognition rate can be as high as 98% if the ratio size of the face in the image is larger than 20%. The NVR's face database can store a maximum of 10,000 faces. The NVR supports different triggers to be activated upon detection or recognition.

TRACKING OPTIONS

Face Tracking.
Following a person's path can easily be done; use the "Track" feature in the NVR, and see the whereabouts of the chosen face. Usable after adding a map to the NVR.

FACE DATABASE FLEXIBLE MANAGEMENT

- The database can be securely exported and imported to other devices.
- New faces can be **added to the database through the Provision CAM2 Mobile App.**
- Detected faces can be registered into the face database with a single click.
- The system will mark the more adequate faces for face recognition.

RECOGNITION STATISTICS

Face Attendance.
After creating a database, you can easily generate reports based on it. The reports can be daily, weekly, or monthly, including information about the all-around presence, absence, or anything in between.

What colour is the night?

rainbow
COLOUR NIGHT VISION

Available in the Turret/Dome and bullet versions, with 2MP and 4MP resolutions, the cameras are equipped with a built-in warm LED light source, F1.0 super-wide aperture lens, and state-of-the-art sensors, which are more sensitive to light than those of traditional infrared technology (black and white).

Artificial intelligence on-board

The 4MP rainbow cameras are equipped with the most talked-about A.I. feature: DDA™ Video Analytics. Thanks to advanced artificial intelligence algorithms, the cameras accurately detect and distinguish people, two and four-wheeled vehicles.

Highlights:

- Full-colour image at night
- Excellent detail visibility
- Better contrast

Active deterrence cameras

SMART ALERT
ACTIVE DETERRENCE CAMERAS

Smart Alert cameras integrate active deterrence mechanisms (such as strobe light and speaker) into compact security devices. Provision-ISR enhances the cameras' performance by enriching them with advanced Artificial Intelligence (DDA™ Video Analytics – Object Recognition Technology).

Available in the Turret / Dome and bullet versions with 4MP resolutions, Provision-ISR's Smart Alert cameras include more exciting features such as the possibility to upload a customized audio message.

Provision-ISR's Smart Alert cameras are widely used in private properties' perimeter protection, industrial or commercial areas. They are also used to prevent unauthorized access to restricted areas, parking lots, or pedestrian zones. Let Provision-ISR's Smart Alert cameras be your security guard!

Highlights:

- Integrated flashlight
- Customizable audio
- Advanced A.I.

Unauthorized access to dangerous areas

Intelligent Auto-Tracking

The three models included in the series (Z4/Z5/Z6) differ in size, I.R. illumination distance, motor speed, lens zoom, and connectivity options. Still, they share a unique and recognizable design featuring the now-famous Provision-ISR's red line.

Cross-platform compatibility

Designed for a wide range of applications and needs, Provision-ISR Intelligent Auto-Tracking PTZ cameras provide full compatibility with all Provision-ISR devices and platforms: Ossia OS, Ossia VMS, and Provision Cam2 Mobile App.

Highlights:

- Artificial intelligence on board
- Auto-tracking option
- Excellent image quality

NVR

Network Video Recorders

In standard installations - the NVR is the heart of the IP System.

It is responsible for smooth communication with the cameras and the constant recording of all the data received from the connected cameras.

Unlike DVRs, the NVR doesn't compress the video signal received from the IP camera but only stores it the same way as the camera already compresses it.

CONVENTIONAL NVRs

These NVRs are connected to the network and communicate with the IP cameras through the general network, without a direct IP camera connection. This provides the installer **the highest flexibility in the design of the system and the wiring.**

Basic knowledge in networking and general IP configuration is required.

POE NVRs

These NVRs perform as a local network switch by creating a closed internal network for the IP cameras. **The IP cameras are connected directly to the NVR by one network cable which will provide PoE power** and automatically configure the camera for display & record.

These NVRs may also perform as conventional NVRs by dedicating some channels to communicating with any ONVIF camera connected to the network. No previous knowledge is required for this type of installation.

IP Switch POE

STANDARD 10/100 Mbps

These PoE switches are the best choice for any standard installation. They are designed specifically for IP surveillance giving extra reliability and installation simplicity. With 4/8/16/24 port options, standard uplinks, and SFP ports (depending on model), they aid with finding a solution for any installation.

PROFESSIONAL 10/100/1000 MBPS

The 1000Mbps (gigabit) PoE switches are made for true professionals. The professional 16/24 Port switches, equipped with an LCD monitor, were designed to display all the following PoE system information on the front panel of the device:

- Single channel In/Out power (W)
- Overload (OLP)
- Short circuit (SCP)
- Low voltage / over voltage (alarm)
- High temperature (alarm)

KEEP ALIVE FUNCTION*

You can configure the new switch series to monitor connected PD's status in real-time via traffic detection. Once traffic of an active port stops for a set duration, the switch will automatically restart the PoE port power, causing the PD to reboot and bring it back to a working state. This feature will significantly enhance reliability and reduce administrator management burden.

CCTV MODE

The CCTV mode is actually a preconfigured VLAN (Cannot be customized by the user) that prevents all communication among the downlink ports. The CCTV mode also limits the communication to 10Mbps to increase stability. The achieved benefits of CCTV mode are: No communication among downlink ports (VLAN) - improves the network security and data transmission efficiency. Limiting the communication speed to 10Mbps increases the communication distance to a maximum of 250 meters.

LCD Switch PoE

An intuitive color panel placed on the front of the switch facilitates Ethernet management and PoE PD management. Smart and intuitive LCD control, jolts for efficient management in large-scale networks for enterprises, hotels, shopping malls, government buildings, and other public areas, and features some specific management and status functions (PoE/Port management and status, switch mode, budget and bandwidth control, PD alive check, maintenance).

PoE Accessories

PoESP-0124W SPLITTER ETHERNET 1 CH POE

- Adjustable output: 5VDC/2A, 9VDC/2A o 12VDC/2A
- Maximum Power Output: Up To 24W
- Short-Circuit Protection
- High Efficiency DC/DC Converter

PoESP-0172W SPLITTER ETHERNET 1 CH POE

- Output: 24VDC / 3A
- Maximum Power Output: Up To 72W
- Short-Circuit Protection
- High Efficiency DC/DC Converter
- DC Jack / Terminal Connector Output

PoEI-0130 / PoEI-0160 ETHERNET INJECTOR 1 CH POE

- Downlink: 1x 100 Mbps
- Output: PoEI-0130 max 30W - PoEI-0160 max 60W
- Internal power supply (require 110/220AC input)
- Distance: up to 100 Meters
- Built-in surge protection

PoER-01 EXTENDER (REPEATER) 1 CH POE

- Extends PoE Ethernet range up to additional 100 meters (10/100Mbps Ethernet)
- No additional power supply is required
- Automatically detects and protects PoE equipment from being damaged by incorrect installation

PoER-02 EXTENDER (REPEATER) 1 TO 2 CH POE

- Extends PoE range up to additional 150 Meters (10/100Mbps Ethernet)
- 11 ch Input / 2 Ch Output
- No additional power supply is required
- Automatically detects and protects PoE equipment from being damaged by incorrect installation

DCoE-01 NON-POE POWER OVER ETHERNET CONVERTER

- Set-Transmitter/Receiver
- 50 Meters working distance
- Camera DC power supply needed
- Supplies DC power input to the camera - Not PoE

*supported model only

4+1 Port Giga Powered Device PoE Switch

Features: Surge Protection. Complies with IEEE802.3af/at/bt.

PoES-0460G+1G(HPD)

Downlink ports	4 x 10/100/1000Mbps
Uplink ports	1 x 10/100/1000Mbps (Powered Device)
Total power	55W (Avg:13.75W Max 30W per ch)
Power Supply	Powered by High Power PoE to PD Port or 54v/1.2A PSU (Not Supplied)

Switch POE 10/100 MBPS

Features: CCTV MODE: Up to 250 meters at 10Mbps, no communication among downlink ports. PoE (8W Max), Built-in Surge Protection. Complies with IEEE802.3af/at.

HD Series

Series earmarked for the installer looking for a high-level camera emphasizing the difference in image quality.

The Pro series cameras are suitable for indoor and outdoor applications where professional video surveillance is required.

Series earmarked for the installer looking for a premium-level camera able to guarantee excellent performances under extreme light conditions. The series can count on both increased wide dynamic range and top-quality sensors. Ultra-cameras find their best application in any area where lighting is challenging.

Provision-ISR HD range also includes:

- A series of **PTZ cameras** for wide-area coverage
- A series of **special cameras** specifically designed for non-conventional applications (box, hidden and PIR cameras)

DVR

Digital Video Recorders

DVR systems are the “heart” of any CCTV installation.

All information streamed from the cameras accumulates in the DVR. The DVR captures the video signal coming from the camera, converts and saves it in digital format.

Therefore, the DVR's quality is as important as the cameras' when it comes down to the final video resolution. Moreover, since all the recording data is saved and rewritten repeatedly on the DVR, it must be an extremely reliable and high-standard product. Provision-ISR DVRs are designed and manufactured according to researched and practiced knowledge over many years of experience.

All DVRs use the advanced H.264-H.265 video compression format to deliver maximum video quality while using minimum storage volume.

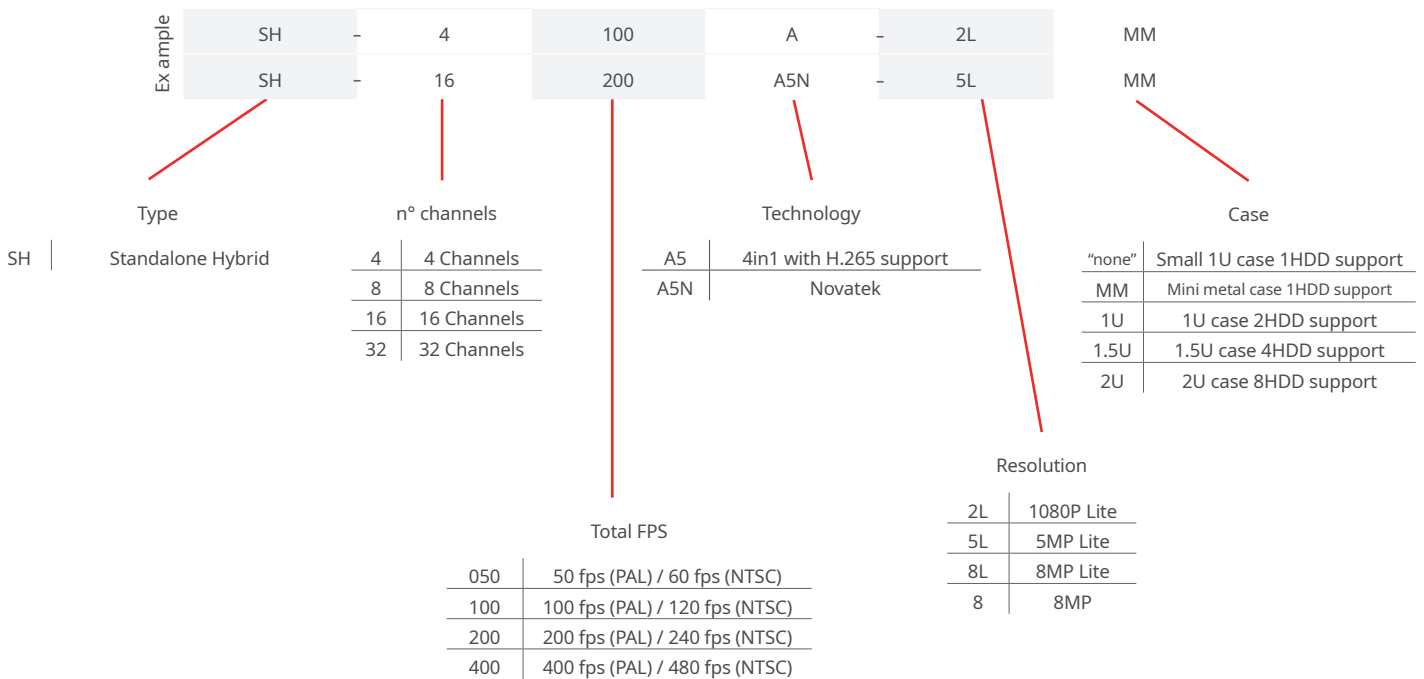

Provision-ISR DVRs are made of the highest quality components and are adapted to work in a wide range of different conditions and applications.

All of our DVRs stand out for their “full feature” operating system with a user-friendly graphical interface running from its powerful processor.

Depending on the model, our DVRs include digital VGA and HDMI monitor out, Analogue video out, audio in/out, RS-485 for PTZ control, and alarm in/alarm out sockets.

The range of DVRs is also supported by a robust network function for remote monitoring, complete remote configuration and mobile device application for remote monitoring.

ONE STOP SHOP

Accessories range

Provision-ISR is a One-Stop-Shop for all CCTV product needs.

We have created a full range of CCTV accessories (test monitors, power supplies, brackets, junction boxes, connectors, baluns, Etc.) matching all types of CCTV installations.

We understand the need for tested and reliable CCTV accessories and set high-quality standards for all products.

USB Alarm BOX

Expand your device's alarm capabilities using our plug-and-play IO-1606 alarm box!

All you need to do is plug the alarm box to the device, using the supplied USB cable, and immediately get additional 16 alarms in and 6 alarms out!

IO-1606	
Alarm Input	16 Dry contacts
Alarm Output	6 Dry contacts
Connection Interface	Micro USB
Power supply	5VDC/1A
Power Consumption	<5W

Housing	Bracket	Wall Mount
Dimensions	140mmx74mmx29mm	
Weight(gross)	180g	
Work Environment	-10°C~50°C, 10%~90% Humidity	

Video server

DVS-IP5-4

- Video input: 1CH Standard BNC (1.0Vp-p, impedance : 75Ω)
- Supported resolution: 4MP
- Frame rate: 1-25 / 30 FPS
- Noise reduction: Yes
- Motion detection: Yes
- Privacy mask: Yes
- Video analytics: Yes
- Image orientation: Mirror / flip / corridor mode
- Multi-stream: 4 MP / 3 MP / 2 MP / 1 MP / D1 / CIF (1-25/30 FPS)
- Bit rate: 64 Kbps - 6 Mbps
- Encode mode: VBR/CBR
- Analogue video output: CVBS (BNC)
- Audio input: Yes; Audio output: Yes
- SD card: Up to 128 Gb (Micro SD)
- Power supply: DC12V-300mA / PoE-3W
- Alarm: 1 In / 1 Out
- Video compression: H.264-H265
- Dimensions: 140 mm x 75 mm x 30 mm
- Operation temperature: -20°C / 55°C

HDMI Accessories

PR-HDMtoVGA

HDMI to VGA

Converts HDMI to VGA output

- Supports: all HD formats up to 1080P @ 30Hz
- Support HDMI 1.4b
- No support for HDMI audio (Will be lost)
- No power required

PR-HDeX (4K)

HDMI Repeater

It repeats and regenerates an entering HDMI signal and allows a second HDMI cable for a total of 40m (131ft).

- Supports: all HD formats up to 4K @ 30Hz
- Support HDMI 1.4b
- Support up to 40 meters total transmission distance (AWG 26 cable standard)
- 1080P resolution: input up to 15 meters, output up to 25 meters
- 4K resolution: input up to 5 meters, output up to 8 meters
- Note: working distance may be affected by the cable quality and length.
- No power required

PR-SP102 (4K)

Splitter HDMI 1 a 2

It splits a single HDMI input signal into 2 identical output signals.

- Split one HDMI input signal into 2 HDMI output signals
- Support HDMI resolution up to 4K@30Hz
- Support digital audio format: DTS-HD/Dolby-true HD/DTS/Dolby-AC3/DSD/HD(HBR)
- Supported HDMI cable distance: (AWG 26 cable standard)
- 1080P resolution: input up to 15 meters, output up to 15 meters
- 4k resolution: input up to 8 meters, output up to 8 meters
- Note: Working distance may be affected by the cable quality and length.
- DC5V power supply needed (USB Power cable included)

PR-SP104 (4K)

Splitter HDMI da 1 a 4

It splits a single HDMI input signal into 4 identical output signals.

- Separate 1 HDMI in to 4 HDMI out
- Support HDMI resolution up to 4K@30Hz
- Support digital audio format: DTS-HD/Dolby-true HD/ DTS/ Dolby-AC3/ DSD/ HD(HBR)
- Supported HDMI cable distance: (AWG 26 cable standard)
- 1080p resolution: input up to 15 meters, output up to 15 meters
- 4k resolution: input up to 8 meters, output up to 8 meters
- Note: Working Distance may be affected by the cable quality and length
- Include DC5V power supply

PR-SW301 (4K)

HDMI Switcher 3 a 1

It incorporates the connection of 3 HDMI sources into a single HDMI display. After connection, you can select the input manually or automatically by the device.

- Compatible with HDMI 1.4a
- Support up to 4K@30Hz.
- Deep color 12bit per channel
- "Smart switching" function that can detect live HDMI signal in different channels and switch to it automatically
- No power supply required for standard installation. If the HDMI output cable exceeds 5m - a CD5V power supply will be required (Not included)

HDMI Accessories

PR-4IN1-Con

Analogue HD to HDMI/VGA/BNC Converter

It converts the Analogue HD signal to an HDMI/VGA/BNC signal for direct connection to a standard display

- Up to HD 2MP signals (AHD/CVI/TVI/CVBS)
- HDMI output compatible with HDCP, HDMI1.4
- HDMI output resolutions: 720P@50/60Hz, 1080P@50/60Hz
- VGA output resolutions: 800x600@60Hz, 1024x768@60Hz, 1366x768@60Hz, 1280x720@60Hz, 1920x1080@60Hz
- Selectable output and resolution by a physical button on the device
- Supports both NTSC/PAL Video inputs –Automatic detection
- Maximum output distance: HDMI: 20 meters, VGA: 5 meters, CVBS: 500 meters

PR-HDoNet-E

HDMI extender su Cat5e/Cat6

It converts the Analogue HD signal to an HDMI/VGA/BNC signal for direct connection to a standard display

- Working distance: up to 10m distance over cat5e cable, up to 20m over Cat6 cable
- HDMI 1.3&3D support
- Support video resolution of up to 1080P@60Hz
- Support format audio: DTS-HD/Dolby-true HD/LPCM7.1/DTS/Dolby AC3/DSD
- Power supply not required

PR-HDoNet+

HDMI extender su Cat5e/Cat6

It converts the Analogue HD signal to an HDMI/VGA/BNC signal for direct connection to a standard display

- Working distance: up to 40m distance over cat5e cable, up to 60m over Cat6 cable
- HDMI 1.3&3D support
- Deep color a 12Bit e larghezza di banda fino a 225Mhz
- 12Bit deep color and bandwidth of up to 225Mhz support
- Support video resolution of up to 1080P@60Hz
- Supported Audio formats: DTS-HD/Dolby-true HD/LPCM7.1/DTS/Dolby- AC3/DSD
- IR signal transmission (PR-HDoNet(IR) model only)
- DC5V power supply included

PR-HDKVMoNet

Extender HDMI USB KVM su Cat5r/Cat6

It transmits HDMI + USB + IR signals over Ethernet cable

- Working distance: up to 100m distance over cat5e cable, up to 130m over Cat6 cable
- HDMI1.3 & 3D Support
- 12Bit deep color and bandwidth of up to 225Mhz support
- Support video resolution of up to 1080P@60Hz
- Supported Audio formats: DTS-HD/Dolby-true HD/LPCM7.1/DTS/ DolbyAC3/DSD
- Support USB2.0 Keyboard and mouse transmission
- Support IR signal transmission
- DC5V power supplies included

Amplified Horn Speaker

PR-HS30W

Amplified Horn Speaker

- Total Distortion: 5% Max at 1KHz 1W
- Resonance Frequency: 700 ± 15%Hz at 1V, 25°C
- Rated Frequency Range: 300Hz ~ 5.5K Hz (-20dB band)
- Sound Pressure Level: 112 ± 3dB 1w/m @ 1K Hz
- Rated Impedance: ACR 8 Ohm
- Work Environment: Temperature -20°C~+40°C, Humidity 45%~85%
- Dimensions: 285(W) × 205(H)× 280(L)mm
- Weight: 2.1kg ± 10%
- Power Input: 12VDC/3A

Balun / High power balun

PTR-101V-HD-8

1CH 8MP Video Passive Balun

- Passive transmission - No power required
- 8MP 4in1 support: AHD / CVI / TVI / CVBS.
- Transmission Distance: AHD / CVBS - 200M / CVI / TVI - 150M. •Friendly "Tool Free" Terminal Connector
- Built-in TVS for Surge Protection
- Anti-Static Design
- Wave Filter Design
- Designed for Cat.5e/6 Cables

PTR-102VP-HD-8

1CH 8MP Video + Power Passive Balun

- Passive transmission - No additional power required
- 8MP 4in1 support: AHD / CVI / TVI / CVBS.
- Transmission Distance: AHD / CVBS - 200M, CVI / TVI - 150M
- Friendly "Tool Free" Terminal Connector
- Built-in TVS for Surge Protection
- Anti-Static Design
- Wave Filter Design
- Designed for Cat.5e/6 Cables

PTR-103VHP-HD

1CH HD Balun video + High power

- Passive transmission - No additional power required
- 5MP 4in1 support: AHD / CVI / TVI / CVBS
- Transmission Distance: AHD / CVBS / CVI / TVI - 200M
- Friendly "Tool Free" Terminal Connector
- Built-in TVS for Surge Protection
- High-Power Input: 12-36VDC
- Power output: 12VDC Stable Output
- Anti-Static Design
- Wave Filter Design
- Designed for Cat.5e/6 Cables

PR-5A8CH+

8 CH Power supply
Output Voltage: DC12V
Output Current: 5 Amp
Backup Battery Support: No

PR-5A8CH-B

8 CH Power supply
Output Voltage: DC12V
Output Current: 5 Amp
Backup Battery Support: Yes (up to 7Ah)

PR-10A9CH+

9 CH Power supply
Output Voltage: DC12V
Output Current: 10 Amp
Backup Battery Support: No

PR-10A9CH-B

9 CH Power supply
Output Voltage: DC12V
Output Current: 10 Amp
Backup Battery Support: Yes (up to 17Ah)

PR-12A16CH+

16 CH Power supply
Output Voltage: DC12V
Output Current: 12 Amp
Backup Battery Support: No

PR-20A16CH (1U)

16 CH Power supply
Output Voltage: DC12V
Output Current: 20 Amp
Backup Battery Support: No

Monitor

PR-IPS7-W

7" TFT Digital Monitor Dual-Input

- Screen Size: 7" TFT Screen
- Resolution: 1024x600
- TV System: PAL / NTSC
- Power Supply: DC 12V, 1A
- Video Input: 1VP-P, 75Ohm
- Inputs: AV1, AV2, VGA, HDMI, Power

- Work Temperature: -10°C ~ 60°C
- Viewing Angle: 85° (All Directions)
- Contrast Ratio: 300:01:00
- Brightness: 320CD/m2
- Weight: 0.80Kg
- Dimension: 177W x 117H x 15D mm

PR-IPS10-W

10" TFT Digital Monitor Multi-Input

- Screen Size 10" TFT Screen
- Resolution 1024x600
- TV System PAL / NTSC
- Power Supply DC 12V, 1A
- Video Input 1VP-P, 75Ohm
- Inputs AV1, AV2, VGA, HDMI, Power

- Work Temperature -10°C ~ 60°C
- Viewing Angle 85° (All Directions)
- Contrast Ratio 300:1
- Brightness 350CD/m2
- Weight 1.2Kg
- Dimension 250W x 163H x 16D mm

Test Monitor

TM-434in1-8

4.3" TFT LCD Test monitor

- 8MP 4in1 support: AHD / CVI /TVI / CVBS
- Image settings support
- 12VDC Output (Plug Supplied)
- 5VDC Output (Micro USB Plug Supplied)
- Audio in with Built-in Speaker
- PAL/NTSC Support

- Status LED Indicators
- Built-In Long-Life Rechargeable Battery
- Hands-Free Operation (Arm strap supplied)
- Light Weight

TM-54in1-2

5" TFT LCD Test monitor

- 2MP 4in1 support: AHD / CVI /TVI / CVBS
- BNC x 1, VGA x 1 Input
- Image settings support
- 12VDC Output (Plug Supplied)
- 5VDC Output (Micro USB Plug Supplied)
- Audio in with Built-in Speaker

- PAL/NTSC Support
- Status LED Indicators
- Built-In Long-Life Rechargeable Battery
- Hands-Free Operation (Arm strap supplied)
- Light Weight

TM-54in1-8

5" TFT LCD Test monitor

- 8MP 4in1 support: AHD / CVI /TVI / CVBS
- Image settings support
- BNC x 1, VGA x 1 Input
- 12VDC Output (Plug Supplied)
- 5VDC Output (Micro USB Plug Supplied)
- Audio in with Built-in Speaker

- PAL/NTSC Support
- Status LED Indicators
- Built-In Long-Life Rechargeable Battery
- Hands-Free Operation (Arm strap supplied)
- Light Weight

Keyboards

IP-KEY01

Keyboard with joystick for IP PTZ
*Available upon request

C-06

Keyboard with joystick for Analogue speed dome (RS-485) and supporting DVRs/NVRs
*Available upon request

Ossia VMS

Dedicated Hardware

Provision-ISR OSSIA VMS is an advanced and reliable software designed for CCTV systems featuring multiple devices that are controlled from a single reliable platform.

Ossia VMS comes with dedicated VMS hardware that are planned, designed, and built by Provision-ISR, with the sole purpose of running the video management software while dedicating 100% of the system resources to the task.

OC-MSCL-S(DT)-V2

Management server

So Small. So powerful.

OC-MSCL-S(DT)-V2 server/workstation is mainly developed for small to medium-sized security systems.

Provision-ISR delivers a winning solution to the field of security with designated hardware that runs embedded Ossia VMS.

This design makes the system far more stable, cost-worthy, and simple to use. As a result, the device is fully dedicated to its task – CCTV management and operation.

Main Features

- 256 Channel support
- 64 Recorder support
- 8GB DDR RAM
- Live View and Playback
- E-Map Monitoring
- Analytics Support
- ONVIF Camera Support
- Auto Report Service Support
- PTZ Support
- Audio Support
- Alarm Support
- Mobile App Support

OC-MS-XL(1U)-V2

Management server

Provision-ISR's new management server is designed to deal with the most demanding tasks and makes a firm base for more extensive security systems.

Combining high performances and embedded Ossia VMS on the one hand and the ability to manage up to 3K channels on the other, the OCMS-XL(1U) makes a stable and commanding solution for most security needs.

Main Features

- Pre-installed Ossia VMS (Server + Client)
- 512 Channels license included
- Full WEB interface
- Total of 256 PC Clients / Mobile App Clients
- Up to 3,000 channels!
- Storage server compatibility
- Set & view AI analytics
- Face database management
- Fisheye special views support
- LPR Monitoring
- User Management
- Map support (including google maps)
- Decoder support
- Audio broadcast

OC-RS-16(3U)

Storage server

Maximum stability, reliability, and capacity

OC-RS-16(3U) has 16 Hot-Swap HDD trays, RAID capabilities, dual Ethernet, and a power supply.

Provision-ISR's Storage Server was planned, designed, and built for the sole purpose of storing massive amounts of data and keeping it as safe and redundant as it can be.

Main Features

- Data capacity increase - allows for a remarkable increase of playback history.
- Redundancy - thanks to RAID5, the data on the disks will be secured against disk faults and errors.
- Flexibility - hot-swap disk trays for fast disk insertion and removal.
- Dual PSU (power supply unit) - one is for backup in case of an electric failure.

Ossia VMS

Dedicated Hardware

OC-TS(1U)

Transfer server

Provision-ISR's Transfer server is designed to stream massive amounts of data from the video devices (IPC/DVR/NVR) to the recording servers and viewing clients.

The transfer server should be used under two circumstances:

- 1) When the user needs to expand the system's bandwidth.
- 2) When the user wants to choose the route from the video devices to the clients.

Main Features

- High Performance x86 Hardware
- Xeon Processor
- 8GB DDR RAM (Expandable)
- WEB interface for configuration
- 4 x 1Gbps Network Interfaces
- Load Balancing / Network Redundancy Support
- Multicast – Bypassing the recorder login limit

DEC-0104(1U)

Decoder

Provision-ISR DEC-0104(1U) decoder makes the difference when it comes to durability. The decoder can display up to 144 channels on four separate screens, taking the most resource-demanding task from the client – to itself.

The client is free to deal with the CCTV unexpected tasks such as handling events, playback, alarms, Etc.

Each of the 144 windows is dynamic: the user can choose to use it as a live window, playback window, or an alarm pop-up window!

Main Features

- 4 HDMI Output (Total)
- 2 x 4K Screen Output
- 1 HDMI Input
- Audio Support
- Live View
- Alarm Popup View
- Playback View
- PTZ control
- Up to 8MP Decoding

IP-KEY02

Keyboard

Much more than a simple accessory

Provision-ISR IP-KEY-02 keyboard is an excellent addition for control rooms, headquarters, or surveillance rooms.

It allows the control of numerous Decoders and IP PTZ cameras and the choice of the camera layout you want by a single button press.

The operator can easily display up to 144 different channels located on four screens connected to the decoder and fully control IP PTZ cameras for a quick focus on a specific object in the scene.

Main Features

- PTZ CAMERAS (IP ONLY)
 - Total movement control
 - Preset
 - Cruise
- DECODERS
 - Layout control
 - Live view
 - Playback
 - Alarm window
 - PTZ control (IP and Analogue)
 - Sequencing channels
